ETHICAL APPROVAL

Study: Designing and Evaluating a Likelihood-Ratio Test for IRT models

Principal investigator: N.L. van Gerwen

Supervisor: Dave Hessen

The study is approved by the Ethical Review Board of the Faculty of Social and Behavioural Sciences of Utrecht University. The approval is based on the documents sent by the researchers as requested in the form of the Ethics committee and filed under number 22-1818. The approval is valid through 08 March 2023. The approval of the Ethical Review Board concerns ethical aspects, as well as data management and privacy issues (including the GDPR). It should be noticed that any changes in the research design oblige a renewed review by the Ethical Review Board.

Yours sincerely,

Peter van der Heijden, Ph.D.

Chair
